

TOOLS AND TIPS FOR

AVOIDING THE LEAD PARENT TRAP

GOOGLE VOICE

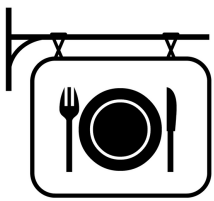

Give out this shared number that can ring on each parent's cell phone and at home.

SHARED E-MAIL ACCOUNT

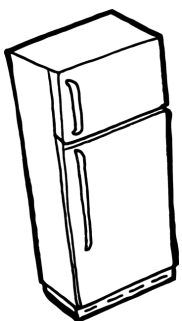

Keep both of you in the loop by having one account where all of your kid and household e-mails are directed. Use your personal e-mail for personal messages.

MENU PLANNING

Stop flying by the seat of your pants & start getting your menu mapped out on your calendar. Think about evening meetings and after school activities as you plan.

COMMAND CENTER

Create a central place in your home where information goes. Have places for the things that you always need at your fingertips, like calendars & chore charts.
